Redefining
Bathrooms, Elevating
Everyday Living

Edition v1.2025

Designed for Every Home, Crafted for Every Culture

AVAPAX is more than just sanitary ware—it's a commitment to enhancing lifestyles. Whether in a modern high-rise in Bucharest, a countryside home in Kyiv, or an urban apartment in Warsaw, AVAPAX products are designed to adapt to different cultures and living spaces. Every faucet, shower system, and fixture is meticulously crafted to transform the bathroom into a **sanctuary of relaxation and well-being**.

AVAPAX

two timeless ideals

Ava

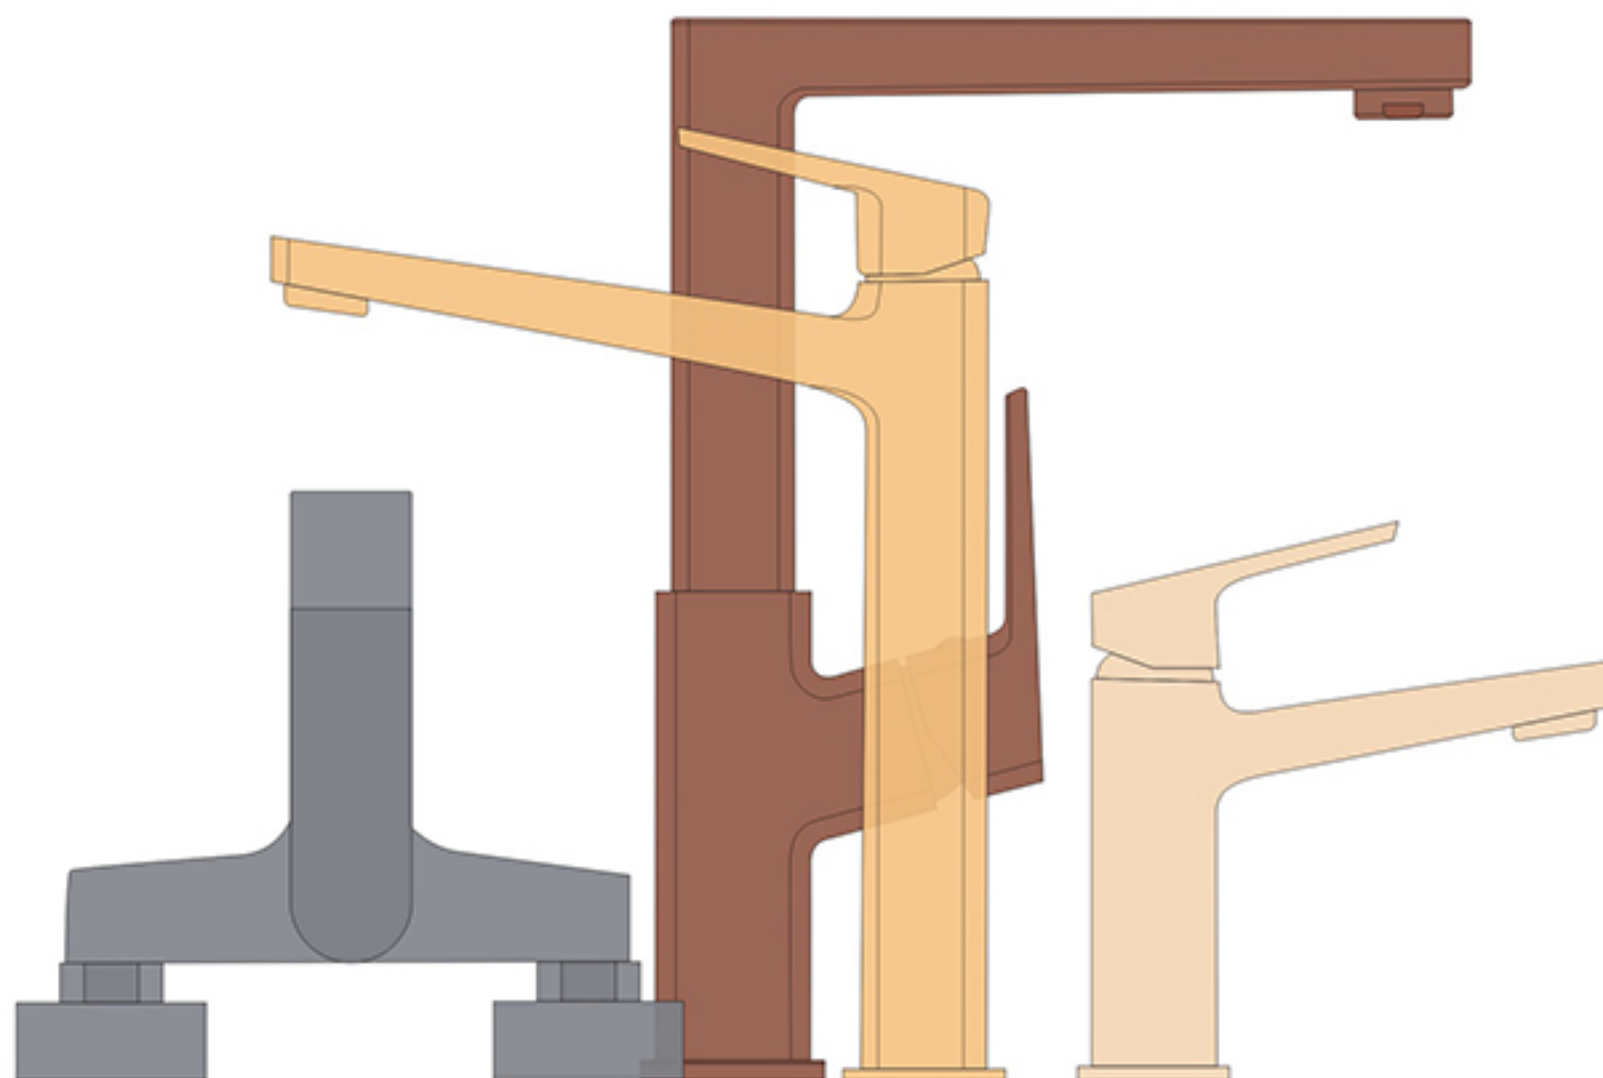

—symbolizing life and vitality.

Pax

—representing peace and tranquility.

Where Peace Meets Life

Rooted in **German craftsmanship** and inspired by the beauty of nature, AVAPAX blends precision engineering with elegant design to create bathroom solutions that **nurture both body and soul**. Now expanding across Europe and beyond, AVAPAX is bringing its promise of harmony, sustainability, and innovation to homes worldwide.

AVAPAX Brand Fundamentals

Brand Core Values

AVAPAX is built on a foundation of principles that shape every product, interaction, and innovation. These core values define the brand's identity and commitment to customers worldwide:

Harmony & Well-being – Creating bathroom spaces that promote relaxation, balance, and peace of mind in everyday life.

German Craftsmanship & Innovation – Combining precision engineering with cutting-edge technology to ensure superior quality and functionality.

Sustainability & Responsibility – Designing eco-friendly solutions that minimize environmental impact while maximizing efficiency and durability.

Timeless Elegance – Merging modern aesthetics with classic design to create products that are both stylish and enduring.

Customer-Centric Approach – Understanding the unique needs of diverse markets and delivering solutions that enhance daily living across different cultures and lifestyles.

Eco-Friendly Approach

AVAPAX is deeply committed to sustainability, integrating eco-conscious design and manufacturing processes to reduce its environmental footprint.

Water-Saving Technology – Faucets and shower systems are designed with **low-flow technology** that reduces water consumption without compromising performance. Smart aerators and flow restrictors ensure optimal water use, **saving up to 50% more water** compared to conventional fixtures.

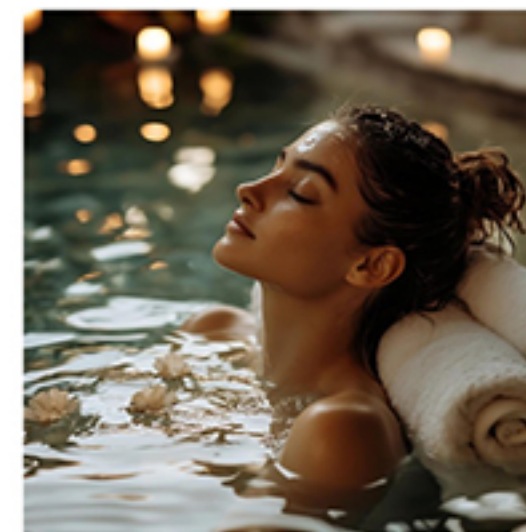

Energy Efficiency – AVAPAX products integrate **thermostatic control** in shower systems, ensuring **precise temperature regulation** to reduce unnecessary energy consumption. Smart technology minimizes heat loss, promoting efficient use of hot water.

Sustainable Materials & Manufacturing – Use of **recyclable and long-lasting materials** such as stainless steel, and CW617 brass to minimize waste.

Eco-friendly production with reduced CO2 emissions, ethical sourcing, and waste management initiatives.

Durability & Longevity – Products are crafted to **last for 10 years**, reducing the need for frequent replacements and minimizing landfill waste. High-quality coatings resist corrosion, reducing maintenance and extending product life.

By embedding sustainability into its core, AVAPAX not only enhances the modern bathroom experience but also contributes to a healthier planet.

TECHNICAL STRENGTH

Our company employs internationally leading intelligent robotic polishing technology combined with fully automated high-end electroplating line equipment, ensuring consistent and precise surface treatment of products. Through high-precision sensors and digital calibration systems, our production process achieves exacting control, guaranteeing that every product complies with stringent industrial standards. We implement a comprehensive ISO quality management system across the entire workflow, conducting rigorous checks at every stage from raw material screening to finished product inspection. By integrating intelligent production management with manual verification, we deliver zero-defect premium processing services to our clients.

In hardware configuration, our intelligent robotic arms precisely adapt to complex surface polishing requirements, while the high-end electroplating line utilizes real-time monitoring to ensure coating uniformity and durability that far surpass industry benchmarks. On the management front, our MES system enables full-process traceability of production data, coupled with dynamic early-warning mechanisms to proactively mitigate risks. Driven by the dual forces of "technology + management," we continuously advance precision manufacturing to create enduring value for our clients.

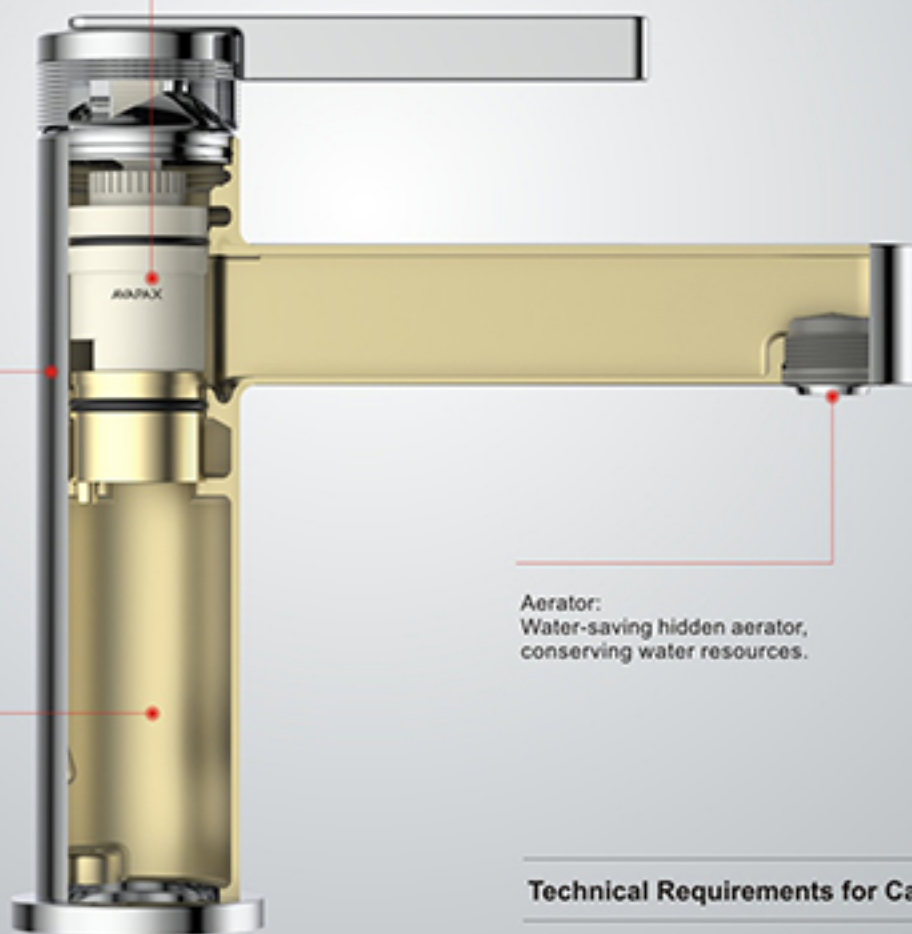

TECHNICAL STRENGTH

								
					Larger-sized showerhead	Adjustable showerhead	360° rotating installation for convenience	Use of silicone material allows for easy removal of limescale and dirt
								
Water-saving technology conserves water resources	Precise water control ensures comfortable showering	Diamond-like surface prevents dirt and maintains a clean appearance	Quick and easy cleaning keeps products looking new					
								
Air mixed with water makes the water flow gentle	When the cartridge is turned on, only cold water is supplied	The height of the showerhead is adjustable for convenience	Aerator for silent and comfortable showering		Tear-resistant stainless steel shower hose	One-button adjustment for shower height	The shower mode creates a seabreeze	The shower mode creates a rain effect on the body
								
					The shower mode creates a tropical rainforest effect	Standard stainless steel construction, sturdy and reliable	10-year warranty	Healthy and safe.
								
Aerator can be easily installed or removed with a coin	Equipped with a child lock to prevent injury	Rotatable handle design allows for easy operation without touching the wall	Use of strong magnetic material for smooth connection		Double-layer coating	Copper	Complete mirror-like surface	Smooth water flow
								
Showerhead with dual functions	Kitchen mixer with a reasonable height for convenient large-capacity water filling	Kitchen faucet with easy mode switching for direct water access	Rotatable faucet provides flexible and comfortable space for bathing		Simple operation	Fast and easy installation	Flexible hose with PEX	Smart box

Basin Mixer Tap

Multi-layer Plating Protection: Passed the 200-hour salt spray test with outstanding durability and a 10-year warranty, ensuring worry-free long-term use.

Ceramic Cartridge: Top-grade ceramic cartridge ensures durability and stability, precisely controls water flow, and achieves water-saving efficiency. Every turn is a precise control, bringing water-saving and efficient living to customers.

Aerator:
Water-saving hidden aerator,
conserving water resources.

Technical Requirements for Cartridge

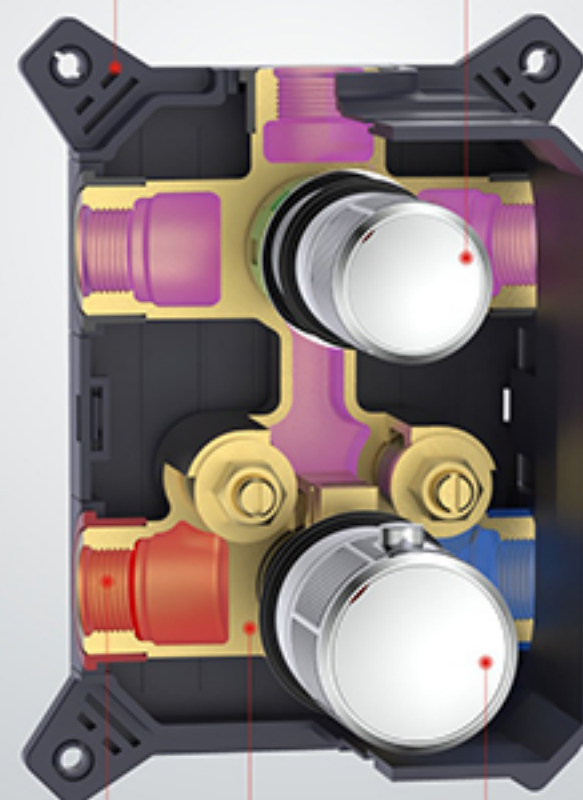

- Operating Pressure(Recommended):1-6 BAR
- Burst Pressure: MAX 35 BAR
- Cartridge Life Cycle:70,000 cycles
- Locking Torque:10-12 N·M
- Surface Smoothness:≤0.2 UM
- Maximum Opening Angle:21°
- Hardness:≥1000
- Maximum Operating Temperature:90°
- Maximum Rotation Angle:100°

Raw Material:
Complies with European Standard 4MS
brass, meeting European water standards.

Thermostatic Three Function Concealed Mixer

Concealed Box:
Made of recyclable, eco-friendly plastic.

Three-Function Ceramic Diverter
Cartridge: Simplifies water diversion.

Thread Standard: Complies
with European standard
G1/2 thread.

Raw Material: Complies with
European Standard 4MS
brass, meeting European
water standards.

High-Quality Thermostatic Cartridge:
Precise temperature control, using
VERNET thermostatic components,
and automatically stops water supply
when there is no pressure on the cold
water side.

Bath Mixer

Two-Function Ceramic Diverter Cartridge: Simplifies water diversion.

Ceramic Cartridge: A top-grade ceramic cartridge ensures durability and stability, precisely controls water flow, and achieves water-saving efficiency. Every turn is a precise control, bringing customers water-saving and efficient living.

Multi-layer Plating Protection: It passed the 200-hour salt spray test, and it has outstanding durability and a 10-year warranty, ensuring worry-free long-term use.

Raw Material: Complies with European Standard 4MS brass, meeting European water standards.

Thermostatic Mixer

Copper Rotating Ceramic Cartridge: Easier to operate and longer service life.

High-Quality Thermostatic Cartridge: Precise temperature control, using VERNET thermostatic components, and automatically stops water supply when there is no pressure on the cold water side.

Raw Material: Complies with European Standard 4MS brass, meeting European water standards.

Single lever shower mixer

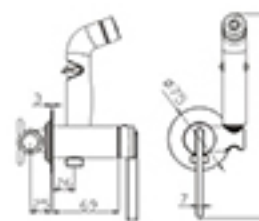

Material: Brass
Cartridge size: 35mm
Surface treatment: Brushed Gold
Wall-mounting
Spacing 150 x 20 mm
Shower set not included

ABAU4112B1

Single lever bidet mixer

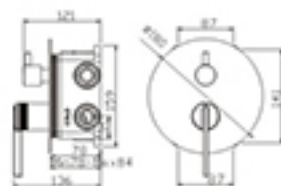

Material: Brass
Cartridge size: 25mm
Surface treatment: Brushed Gold
120cm shower hose
Water flow adjustable shattfu
A set of concealed and surface mounted components

ABAU5212C1

Single lever two-function concealed shower mixer

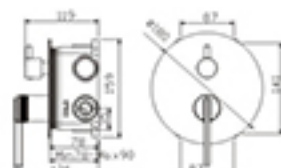

Material: Brass
Cartridge size: 35mm
Surface treatment: Brushed Gold
Two Functions with ceramic switch
Wall mounted with concealed box
A set of concealed and surface mounted components

ABAU5312C1

Single lever three-function concealed shower mixer

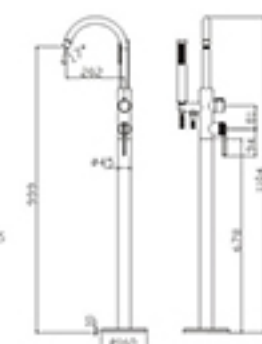

Material: Brass
Cartridge size: 35mm
Surface treatment: Brushed Gold
Three Functions with ceramic switch
Wall mounted with concealed box
A set of concealed and surface mounted components

ABAU221221

Single lever free-standing bathtub mixer

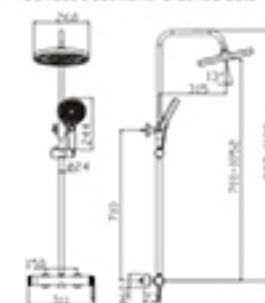

Cartridge size: 35mm
Surface treatment: brushed gold
Ceramic switch with metal holder
2 function: shower / bathtub
A set of concealed box and surface mounted components
Single function shower
150cm S.S. shower hose

ADAU621221

Single Lever Two-Function Shower Column mixer

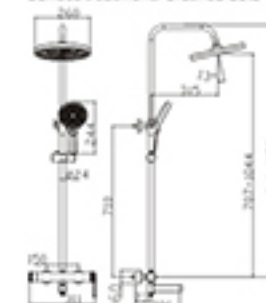

Rainfall shower:
• Regulated length of metal bar 800-1250mm
• regulated mounting height
• regulated distance of rainfall from wall allowing easy mounting
• shower head plate - Ø 260 mm
• ball-joint - adjustable angle of overhead shower plate
• metal switch with ceramic insert
Shower:
• 3-function shower handle
• streams: rain, massage, mixed
• 150 cm PVC shower hose
Shower mixer:
• wall-mounting
• spacing 150 x 20 mm
Material: Brass
Cartridge size: 35mm
Surface treatment: Brushed Gold

ADAU6312H1

Single Lever Three Function Shower Column mixer

Rainfall shower:
• Regulated length of metal bar 800-1250mm
• regulated mounting height
• regulated distance of rainfall from wall allowing easy mounting
• shower head plate - Ø 260 mm
• ball-joint - adjustable angle of overhead shower plate
• metal switch with ceramic insert
Shower:
• 3-function shower handle
• streams: rain, massage, mixed
• 150 cm PVC shower hose
Shower mixer:
• ceramic switch with metal holder
• 3 function: rainfall / shower / bathtub
• wall-mounting spacing 150 x 20 mm
• Cartridge size: 35mm
• Surface treatment: Brushed Gold

AUREVO series

Chrome Gold

NEATNESS AND HARMONY

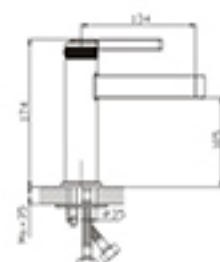

If harmony is determined by the geometric proportions between the parts, then the ultimate expression of formal purity is the intersection of the circle and the square. It is considered highly contagious across continents and cultures. The circle symbolizes eternal motion, while the square represents eternity and immutability. The combination of these two geometry forms the dynamic image of purity: the transition to perfection and balance.

- Regulated length of metal bar 830-1130mm
- Regulated mounting height
- Regulated distance of rainfall from wall allowing easy mounting
- Shower head plate - Ø 230 mm
- Ball joint - adjustable angle of overhead shower plate
- Metal switch with ceramic insert
Shower:
- Shower hand diameter 120 mm
- 3-function shower handle
- Dreams: rain, massage, mixed
- 150 cm PVC shower hose
Shower mixer:
- Wall-mounting
- Material: Stainless Steel
- Cartridge size: 35mm
- Surface treatment: Chrome

ADKS6311H1

Single Lever Three Function Shower Column mixer

Rainfall shower:
- Regulated length of metal bar 830-1130mm
- Regulated mounting height
- Regulated distance of rainfall from wall allowing easy mounting
- Shower head plate - Ø 230 mm
- Ball joint - adjustable angle of overhead shower plate
- Metal switch with ceramic insert
Shower:
- Shower hand diameter 120 mm
- 3-function shower handle
- Dreams: rain, massage, mixed
- 150 cm PVC shower hose
Shower mixer:
- Ceramic switch with metal holder
- 3-function: rainfall/shower/bath tub
- Wall-mounting spacing 150 x 20 mm
- Material: Stainless Steel
- Cartridge size: 35mm
- Surface treatment: Chrome
